) Examiner: D. Taylor

TERMINAL DISCLAIMER TO OBVIATE A DOUBLE PATENTING REJECTION

Honorable Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Sir:

I, David Lesht, represent that I am one of the attorneys of record for this invention and that I am authorized to sign this Terminal Disclaimer on behalf of the assignee identified below. The assignee of the entire right, title and interest in and to the invention of the subject application is Intelpro Corporation, a corporation of the State of Illinois, having its principal office at 36 South State Street, Chicago, Illinois 60603. An Assignment of the whole invention from the inventor, Keith J. Osborne, to Intelpro Corporation was recorded

on November 26, 1991, at Reel/Frame 5939/0033. Intelpro Corporation is also the owner, by assignment, of the entire right, title and interest in and to the invention of and U.S. Patent Application Serial No. 07/286,893. An assignment of the whole invention from the inventor, Keith J. Osborne, of Serial No. 07/286,893 to Intelpro Corporation was recorded at Reel/Frame 5939/0033. I, a person authorized to sign on behalf of the assignee, have reviewed the evidentiary documents referred to above and certify that, to the best of my knowledge and belief, Intelpro Corporation owns the whole title to both the invention of this application and to the invention of application Serial No. 07/286,893 as assignee and seeks to take the following further action.

The terminal part of the statutory term of any patent granted on the above-identified application, which would extend beyond the expiration date of the full statutory term of any patent granted on Application Serial No. 07/286,893 is hereby disclaimed, except as provided below, and it is agreed that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to any patent granted on application Serial No. 07/286,893, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors or assigns.

In making the above disclaimer, disclaimant does not disclaim the terminal part of any patent granted on the above-

identified application that would extend to the expiration date of the full statutory term of any patent granted on application Serial No. 07/286,893 in the event that it later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. §1.321(a), has all claims cancelled by a reexamination certificate, is reissued in any manner or is otherwise terminated prior to expiration of its full statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.

Attached hereto is a check in the sum of \$110.00 to cover the fee associated with the filing of this disclaimer. The Commissioner, however, is authorized to charge any fee deficiency or credit any fee overpayment associated with this filing to Deposit Account No. 12-1828.

Respectfully submitted,

LOCKWOOD, ALEX, FITZGIBBON & CUMMINGS
